Shade and Open Space

biohort

For Unique Moments in Your Garden

A high-quality pergola is the centrepiece of an outdoor area. Not only does it provide shade, but it also provides the perfect space for our next garden party or summer brunch. The timeless design and first-class workmanship are a given at Biohort.

Additional Advantages

- The usual Biohort quality and service
- Optimally organised installation service network
- Design and colours to match the existing product range
- Everything from a single source. High customer loyalty and repurchase rate
- High-quality raw material with top coating quality
- Proven Biohort drop shipping versus storage risk for products from the Far East
- Long-term availability of spare parts and retrofittable accessories

Louvres in Detail - Sandwich Construction with Peripor Core

Coordinated construction with insulating core guarantees pleasant hours under the pergola thanks to reduced heat radiation.

Significantly reduced noise generation ensures greater quiet comfort.

NOISE AND HEAT

Louvres in Detail - Sandwich Construction with Peripor Core

Compared to Styropor, Peripor impresses with improved thermal insulation and significantly

higher moisture resistance.

Alex Duo

Double Wheelie Bin Box

Design Meets Practicality

Nothing spoils the image of a perfectly manicured front garden more than visible wheelie bins. Thanks to Biohort, these can be concealed behind a modern, smooth front. With the new Alex[®] Duo, the separation system is optimally accommodated, tidiness is emphasised and an attractive overall appearance is created in the garden.

Alex Duo

Additional Advantages

Romeo[®] M^{HIGH} & L^{HIGH} Patio Locker

More Space for the Essentials

The Romeo[®] patio locker creates additional space without needing much space for itself. Moreover, it spoils all balcony and patio fans with an individual shelf range, soft-closing doors due to gas springs and many more details which are typical for Biohort!

Raised Bed 4x1

In addition to the slug guard and cold frame extension, the following accessoris are optionally available for the raised bed 4x1.

Intermediate Floor

The intermediate floor reduces the volume of the bed and the soil filling required, saving both money and valuable time. It is placed on the second corrugation during assembly.

Trellis

The trellis is attached directly to the raised bed. Height: 91 cm

Privacy Screen with or without Tinted Glass Panel

In combination with the planting bed, the privacy screen forms a decorative boundary and serves not only as a privacy screen but also as a windbreak. Height: 91 cm.
